

BALANCED PORTFOLIO

31ST DECEMBER 2019

OBJECTIVE

In contrast to our portfolios of active investment products, this TAM Passive portfolio comprises solely of passive investment vehicles (such as unit trusts and exchange traded funds) that simply track a market and aim to deliver returns reflective of how that market is performing. Asset classes you could find in this portfolio are government bonds, corporate bonds, alternatives and cash. Property and exchange traded commodities may all feature within the alternatives classification.

Passive Balanced seeks to generate capital growth over the medium to longer term, with the aim of riding out short-term fluctuations in value. The portfolio will have a more balanced approach to equity exposure compared to Passive Growth - typically comprising of 50% equity and 50% non-equity - though weightings may deviate within set parameters, allowing managers to react to market conditions.

CURRENT ASSET ALLOCATION

*Property and exchange traded commodities may all feature within the alternatives classification

GEOGRAPHICAL EXPOSURE
